# INDEPENDENT AUDITORS' REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

To the Board of Directors and Stockholder of Multibank Inc.

#### Report on the review of the condensed consolidated financial statements

#### Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Multibank Inc. and subsidiaries ("the Bank") as of March 31, 2022, the condensed consolidated statements of profit or loss, comprehensive loss, changes in equity and cash flows for the three-month periods ended March 31, 2022 and 2021 ("the Condensed Consolidated Interim Financial Statements"), and notes to the condensed consolidated interim financial statements. Management is responsible for the preparation and fair presentation of this condensed consolidated interim financial statements in accordance with IAS 34, Interim Financial Reporting. Our responsibility is to express a conclusion on this condensed consolidated interim financial statements based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements of Multibank Inc. and Subsidiaries as of March 31, 2022 are not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting".

#### Report on Other Legal and Regulatory Requirements

In compliance with Law 280 of December 30th, 2021, which regulates the certified public accounting profession in the Republic of Panama, we declare the following:

- That the direction, execution and supervision of this review engagement has been physically performed in the Panamanian territory.
- The partner that has prepared this independent auditors' report is Ricardo A. Carvajal V.
- The engagement team that has participated in the review to which this report refers, is formed by Ricardo A. Carvajal V., Partner; Wuilliam Guerra, Senior Manager; and Manuel Pino, Supervisor.

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

March 31, 2022

(In U.S. dollars)

#### (1) Organization

Multibank Inc. is incorporated under the laws of the Republic of Panama and started operations on July 12, 1990, under a general banking license issued by the Superintendency of Banks of Panama (hereinafter referred to as "the Superintendency"), by means of Resolution N° 918 dated March 28, 1990, which allows it to provide banking services, indistinctly, in Panama or abroad, and conduct any other activity authorized by the Superintendency.

On May 22, 2020, the sale of the shares of the Multi Financial Group, Inc. (Parent Company up to that date), 99.57% by the AVAL Group (based in Colombia), was formalized through its subsidiary Leasing Bogota, S.A. Panama. Leasing Bogota, S.A. Panama is wholly owned by Banco de Bogota, S.A., an authorized bank in the Republic of Colombia, a subsidiary of Grupo Aval Acciones y Valores, S.A., an entity domiciled in the Republic of Colombia.

On September 29, 2021, the spin-off of the shares of Multi Financial Group, Inc. was carried out by BAC Holding International Corp. (formerly Leasing Bogota, S. A. Panama) to Multi Financial Holding Inc., an entity constituted in accordance with the laws of the Republic of Panama, through Public Deed No.5,469 of September 29, 2021.

Multibank Inc. is a 100% subsidiary of Multi Financial Group, Inc. (MFG), an entity incorporated in accordance with the laws of the Republic of Panama, through Public Deed No.27,702 dated November 9, 2007. As of September 29, 2021, MFG is 99.57% owned by Multi Financial Holding Inc. (the "Parent Company"). Multi Financial Holding Inc. is wholly owned by Banco de Bogota, S.A., an authorized bank in the Republic of Colombia, which in turn is a subsidiary of Grupo Aval Acciones y Valores, S.A., an entity domiciled in the Republic of Colombia.

The Bank consolidates directly and indirectly with the following entities:

| <b>Subsidiary</b>                 | <u>Activity</u>          | <b>Location</b> | Total voting<br><u>rights</u> |
|-----------------------------------|--------------------------|-----------------|-------------------------------|
| Multi Securities, Inc.            | Dealer/Broker            | Panama          | 100%                          |
| Multi Trust, Inc.                 | Trust Company            | Panama          | 100%                          |
| Multibank Seguros, S. A.          | Insurance                | Panama          | 100%                          |
| MB Creditos, S. A. and subsidiary | Financial<br>institution | Costa Rica      | 100%                          |
| Orbis Real Estate, Inc.           | Real Estate              | Panama          | 100%                          |

Multibank Inc. and Subsidiaries; will be referred to collectively as "the Bank".

On October 21, 2021, the Bank's Board of Directors approved the merger by absorption of Orbis Real Estate, a subsidiary 100% owned by Multibank Inc., at the expense of the Superintendency of Banks of Panama' approval.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

# (2) Basis of Preparation of the Condensed Consolidated Interim Financial Statements

- (a) Condensed consolidated interim financial statements The Bank prepares its condensed consolidated interim financial statements incorporating its controlled entities. The Bank controls an entity if and only if it complies with the following elements:
  - Power over the entity that entitles the Bank to direct any relevant activity that significantly affects the entity's performance.
  - Exposure or rights to variable returns from their participation in the entity.
  - Ability to affect those returns through its power over the entity.

To comply with this requirement, the Bank conducts an annual reassessment of all its contractual relationships. New entities are not required to be consolidated as a result of this process, including structured entities.

The financial statements of the Bank's subsidiaries are included in the condensed consolidated interim financial statements from the date the Bank acquired control or until the date control is lost.

During the consolidation process, the Bank consolidates the assets, liabilities, and gains or losses of the entities under control, previously aligning the accounting policies of all its subsidiaries. This process includes eliminating balances and transactions within the bank and any unrealized and realized income and expenses (except foreign currency translation gains or losses and taxes that are not subject to elimination) arising from transactions within the bank. Unrealized and realized losses are eliminated in the same way as unrealized and realized gains, but only to the extent that there is no evidence of impairment.

#### (b) Compliance with International Financial Reporting Standards ("IFRS")

The condensed consolidated interim financial statements of the Bank have been prepared in accordance with the International Accounting Standard No.34, Interim Financial Information of the International Financial Reporting Standards (IFRS), they should be read in conjunction with the consolidated financial statements for the year ended December 31, 2021.

IAS No. 34 does not require disclosure in interim financial information of all the notes that are prepared when preparing the annual financial statements according to the IFRS requirements; however, a selection of informative notes have been included to explain the events and transactions that are important to understand the change and performance of the Bank in its financial position since its last annual financial statement.

The consolidated results of operations for the Interim periods are not necessarily indicative of the results that can be expected for the whole year.

These condensed consolidated interim financial statements were authorized for issuance by the Audit Committee and ratified by the Board of Directors on May 9, 2022.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

# (2) Basis of Preparation of the Condensed Consolidated Interim Financial Statements, continued

(c) Basis of measurement

The condensed consolidated interim financial statements have been prepared on a historical and amortized cost, except for the following accounts in the condensed consolidated interim financial statements:

- Investments at fair value
- Derivatives financial instruments
- Real estate; and
- Assets held for sale.

Initially, the Bank recognizes financial instruments as of the date they are disbursed. Investments in securities and loans at amortized costs are recorded when settled.

#### (3) Summary of Significant Accounting Policies

The Bank has applied the policies to the condensed consolidated interim financial statements in a manner consistent with those of the consolidated financial statements as of December 31, 2021.

#### (4) Risk Management

Risk management is a fundamental part of the Bank. It has an infrastructure to comprehensively manage risks, in order to ensure a responsible and sustainable growth in time, to maintain the confidence of its stakeholders, and to assure with reasonable certainty the fulfillment of its short, medium and long-term goals, through a balance between meeting objectives and taking risks, in line with the corporate strategy.

The following table provides a reconciliation between line items in the condensed consolidated statement of financial position and categories of financial instruments.

#### (4) Risk Management, continued

#### *Guarantees and other improvements to reduce credit risk and its financial effect* The Bank maintains guarantees and other improvements to reduce credit risk to ensure the payment of their financial assets exposed to credit risk. The types of mortgage guarantees include residential and commercial, buildings and land. The types of collateral include private vehicles, commercial use, leasing, machinery and other equipment.

The table below shows the main types of guarantees taken with respect to different types of financial assets.

|   |               | March 31, 2022 |                            |                              |               |               |

(Panama, Republic of Panama)

## Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued

The table below shows the portfolio and identifiable value of collateral (primarily commercial properties) backing up the loan. For each loan, the corresponding value of its guarantees is capped by the guaranteed nominal amount.

|               | March 3              | 1, 2022              | December             | 31, 2021             |
|---------------|----------------------|----------------------|----------------------|----------------------|
| Corporates    | Loans                | Covered amount       | Loans                | Covered amount       |
| Stage 1 and 2 | 905,856,751          | 897,452,640          | 948,250,268          | 946,869,372          |
| Stage 3       | 163,577,106          | 161,098,930          | 114,067,753          | 113,875,255          |
| Total         | <u>1,069,433,857</u> | <u>1,058,551,570</u> | <u>1,062,318,021</u> | <u>1,060,744,627</u> |

The following are the non-financial assets that the Bank seized as collaterals to secure collection during the period:

|                     | March 31<br><u>2022</u> | December 31<br><u>2021</u> |
|---------------------|-------------------------|----------------------------|
| Property            | 1,471,386               | 12,822,489                 |
| Vehicles and others | <u>136,919</u>          | 504,130                    |
| Total               | <u>1,608,305</u>        | <u>13,326,619</u>          |

The Bank's policy is to sell these assets to cover the balances due. Using foreclosed assets for its operations is not a Bank policy.

#### Residential mortgage loans

The following table shows the ratio of loans from the mortgage portfolio to the value of collaterals. LTV is calculated as a percentage of the loan gross amount with respect to the collateral value. The gross amount of the loan does not include any impairment loss. The collateral value for mortgages is based on the original value of the guarantee at disbursement. The corresponding values are updated based on the requirements of local regulators, new disbursements with the same guarantee, restructuring of the credit or judicial processes that imply execution.

#### ECL allowance Projection of future conditions

The upside, base and downside scenarios are described below, along with the main risks taken into consideration to define them.

External sector:

| External risk  | Upside  | Base  | Downside  |
|--|---|---|---|
| Vaccine Application:<br>It is identified as the distribution and<br>effectiveness of the vaccine and its<br>impact on economic growth. | <ol> <li>Main commercial partners<br/>immunize population during the<br/>first semester, 2021.</li> </ol> | <ol> <li>Main commercial partners<br/>immunize population during the<br/>first semester, 2021.</li> </ol> | <ol> <li>Main commercial partners<br/>immunize population during the<br/>first semester, 2022.</li> </ol> |

#### The scenarios for each country are detailed below:

| Scenario   | Scenarios synthesis   | Upside  | Base  | Downside  |
|------------|---|---|---|---|
| Panama     | <ol> <li>Panama's economic growth remains the<br/>highest among Central American countries.</li> <li>Regarding the last review, scenarios of higher<br/>inflation during 2022 and a gradual increase<br/>in interest rates are contemplated, in line with<br/>the rate trend in the United States.</li> </ol>                             | Panama is favored by<br>external economic growth<br>above expectations, with<br>fewer obstacles to<br>international trade   | Government investment<br>projects will support the base<br>scenario for economic<br>growth with improved<br>productivity.   | The deterioration in<br>government finances<br>continues and there is a<br>greater increase in debt,<br>which puts more pressure on<br>prices and affects economic<br>growth.   |
| Costa Rica | <ol> <li>Growth remains stable and economic<br/>recovery recovers during 2022.</li> <li>Inflation is expected to remain in the upper<br/>half of the target range, with the possibility of<br/>exceeding it in the pessimistic scenario. A<br/>lower devaluation is expected than in 2021<br/>and stability in interest rates.</li> </ol> | Improvement in public<br>finances, institutional<br>strength, with transparent<br>elections and advances in<br>vaccination result in higher<br>than expected growth and<br>stability in interest rates. | Government advances in<br>agreement with the IMF, with<br>the objective of balancing its<br>finances, which results in<br>stability in economic growth,<br>inflation in the target range<br>and gradual increase in<br>rates, in line with increases<br>by the FED. | Political agreements are not<br>reached to reduce the fiscal<br>deficit, uncertainty<br>generates exchange rate<br>pressures and an increase in<br>the demand for loanable<br>funds from the government<br>puts pressure on interest<br>rates |

The scenario probability weightings applied in measuring ECL in each of the countries where the Bank operates, are as follows:

|                                | March 31,<br>2022 | March 31,<br>2022 | December 31,<br>2021 | December 31,<br>2021 |
|--------------------------------|-------------------|-------------------|----------------------|----------------------|
| Scenario probability weighting | Panama            | Costa Rica        | Panama               | Costa Rica           |
| Optimistic                     | 25%               | 20%               | 25%                  | 20%                  |
| Base                           | 60%               | 65%               | 60%                  | 65%                  |
| Downside                       | 15%               | 15%               | 15%                  | 15%                  |

Periodically, the Bank carries out stress tests of more extreme shocks to calibrate its determination of the upside and downside representative scenarios. A comprehensive review is performed at least annually on the design of the scenarios, advised by at least one external economist.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued

The Bank has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

The key drivers for credit risk for loans' portfolios are: Monthly Economic Activity Index, Consumer Price Index, Exchange Rate, Local Currency Interest Rate and Dollars Interest Rate.

The Bank estimates each key driver for credit risk over the active forecast period of one year.

The table below lists the macroeconomic assumptions used in the base, upside and downside scenarios over the forecast period.

|                                    |            | March 31, 2022 |        | December   | 31, 2021 |

#### Sensitivity of ECL to future economic conditions

The ECL is sensitive to judgements and assumptions made regarding formulation of forward-looking scenarios and how such scenarios are incorporated into the calculations. Management performs a sensitivity analysis on the ECL recognized on material classes of its financial assets.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

# (4) Risk Management, continued

The table below shows the loss allowance on loans assuming each forward-looking scenario (e.g. base, upside and downside) were weighted at 100% instead of applying scenario probability weights across the three scenarios, See note 3 (c).

| <u>March 31, 2022</u>  | Upside  | Base  | <u>Downside</u>   |

#### Concentration of credit risk

The Bank follow-up the concentration of credit risk by sector and geographic location. The geographic location of loans and deposits in banks is based on the location of the debtor. As for investments, they are based on the location of the issuer. The analysis of the concentration of credit risks at the reporting date is as follows:

|                         |                                      |   | March 31                    | , 2022                  |                                |                             |

The Bank has been and will continue to monitor the evolution of the liquidity and the quality of the portfolio of financial instruments placed or acquired in that country, in order to mitigate and manage the impacts of this situation.

#### (a) Liquidity Risk

Liquidity risk is defined as the contingency for not being able to comply fully, in a timely and efficient manner, the expected and unexpected cash flows, current and future, without affecting the course of daily operations or the financial condition of the entity. This contingency (liquidity risk) is evidenced in the insufficient liquid assets available for this and/or the need to assume unusual funding costs.

The liquidity management conducted by the Bank seeks to meet its obligations of (i) withdrawals of deposits by its customers, (ii) repayment of the service of its debts of institutional funding according to maturity and the payment scheme scheduled, and (iii) compliance with the credit demand and investment funds according to the requirements. In this regard, the Bank has constant control over its short-term liabilities and assets. The Bank's liquidity is carefully managed and adjusted daily based on the estimated flow of liquidity in expected and contingent scenarios.

(Panama, Republic of Panama)

#### (4) Risk Management, continued

The Bank's liquidity management best practices are in compliance with the policies and guidelines issued by Senior management and/or Regional and Local Board of Directors; the regulators of each country in which it operates and the contractual obligations. These best practices are primarily defensive, in the sense of seeking to always maintain appropriate levels of liquidity. In addition, the Bank has implemented the internal liquidity requirements that force it to keep excesses on regulatory requirements.

Specifically, the Bank's liquidity risk is managed through the calculation of liquidity coverage indicators in the short term, net of obligations and requirements, and in normal and stressful situations, as well as a stress model of liquidity based on the cash flow, which considers the activity of assets and liabilities in a time horizon of up to one year, under a variety of scenarios, which include both normal market conditions and more severe conditions. In addition, the Bank seeks to maintain a term matching, which enables it to meet its financial obligations over time.

As in the market risk, Senior Management engages actively in liquidity risk management through regional and local Assets and Liabilities Committee (ALICO) and Comprehensive Risk Management; thus, giving greater support to the strategic decision-making process. The liquidity risk assumed by the Bank is in line with the structure, complexity, size and nature of its operation, while always respecting the local regulations, the regional guidelines and the guidelines issued by Senior Management and/or Regional and Local Board of Directors.

At the level of the entire Bank is established the obligation of properly documenting the periodic assessment of measurement indicators and compliance with regional guidelines and local regulations is established; as well as ensuring that reports related to liquidity risk to be remitted to the different internal and external instances (including the regulator) are adequate in terms of content, quality of information, generation, transmission and validation according to the requirements set forth in the respective standards.

The following table shows the results of the ratios for high-quality liquidity coverage with respect to the outflow of deposits under normal and stressful conditions, calculated based on internal policies, reported as of the reporting date and during the period:

|                               | <u>% of l</u>            | _iquidity                   |
|-------------------------------|--------------------------|-----------------------------|
|                               | March 31,<br><u>2022</u> | December 31,<br><u>2021</u> |
| At the end of the period/year | 31.2%                    | 31.8%                       |
| Maximum for the period/year   | 38.6%                    | 40.8%                       |
| Average for the period/year   | 33.3%                    | 33.5%                       |
| Minimum for the period/year   | 29.2%                    | 25.2%                       |

As of March 31, 2022, the Banking operations of the Bank comply with the liquidity requirements established by the regulators.

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued

The liquidity of the Bank is measured and monitored on a daily basis by the treasury of each country. In addition, the Bank maintains appropriate levels of cash in vaults, deposits in banks and short-term deposits which constitutes the Bank's basis of liquidity reserves. The composition of liquidity is shown in the following table:

|   | March 31,<br><u>2022</u> | Decmber 31,<br><u>2021</u> |
|---|--------------------------|----------------------------|
| Cash and cash equivalents                             | 21,076,099               | 21,963,899                 |
| Deposits due from banks maturing in less than 90 days | 128,948,764              | 154,187,651                |
| Deposits due from banks greater than 90 days          | <u>7,554,586</u>         | <u>7,528,809</u>           |
| Total Cash, cash equivalents and deposits in banks    | 157,579,449              | 183,680,359                |
| Not committed sovereign debt instruments              | 407,028,616              | 399,421,474                |
| Other credit lines available (1)                      | <u>606,978,199</u>       | <u>673,007,875</u>         |
| Total liquidity reserve                               | <u>1,171,586,264</u>     | <u>1,256,109,708</u>       |

(1) Amounts not disbursed as of the reporting date.

The available credit lines are for use in normal business scenarios. They may have restricted use in stressful situations.

The following table shows the availability of the Bank's financial assets to support the future financing:

| March 31, 2022                              | Committed     | Uncom                      | mitted        |               |

(2) It represents assets that are uncommitted for use as collateral.

#### (b) Market Risk

Market risks are those that may result in losses as a result of adverse price movements in the financial markets where positions are maintained. It comprises the following risks:

- Interest rate risk: is the possibility of an economic loss due to adverse variations in interest rates.
- Exchange rate risk: is the possibility of an economic loss due to adverse variations in the exchange rate.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued

The main objectives of the Bank's corporate governance structure include supervising the performance of the management team in each country, ensuring the proper functioning of the internal control system, monitoring the exposure to risks and managing them effectively. For such purpose, management engages actively in market risk management through the regional and local Assets and Liabilities Committees (ALICO) and the Comprehensive Risk Management Committee; thus, giving greater support to the strategic decision-making process.

Market risks assumed by the Bank are in line with the structure, complexity, size and nature of its operation, while always respecting the local regulations, the regional guidelines and the guidelines issued by management and/or regional and local board of directors.

The Bank establishes the requirement of properly documenting the periodic assessment of measurement indicators and compliance with regional guidelines and local regulations, as well as ensuring that reports related to market risk to be remitted to the different internal and external instances (including the regulator) are adequate in terms of the content, quality of information, generation, transmission and validation according to the requirements set forth in the respective standards.

For the measurement, control and management of market risk, the Bank uses the indicators required by the regulator of each country as well as another set of indicators established in the internal regional guideline, which are calculated by country and in a consolidated manner based on internal sources of information.

Exchange risk is measured through the determination of the equity percentage that is not dollarized (also known as monetary position). The main objective of the policy is to establish that the difference between assets denominated in US dollars and liabilities denominated in US dollars is at least equal to equity, which is equivalent to having a 100% dollarized equity. However, due to regulatory restrictions applicable in each country that limit the position in US dollars, the consolidated monetary position may be below this desirable limit. The Bank manages this risk for certain operations through the acquisition of hedging derivatives that mitigate the exposure to exchange rate fluctuations (See note 17).

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued *Quantitative information*

The Bank maintains operations in the consolidated statement of financial position, agreed in local currency other than US dollars, which are listed below:

Based on the above, the Bank calculates the total exposure of the consolidated statement of financial position to interest rate risk. The Bank states that the interest rate risk should be measured for each currency in which assets and liabilities are maintained.

Interest rate risk is analyzed based on the gap analysis, in order to approximate the change in equity of the Bank's consolidated statement of financial position and in the net income from interest from eventual changes in market interest rates. The economic value of an instrument involves an assessment of the current value of its expected net cash flows, discounted to reflect market rates. By extension, the economic value of a financial entity can be seen as the present value of expected net cash flows from the entity, defined as expected cash flows from assets less expected cash flows from liabilities. In this sense, the perspective of economic value reflects a view of the sensitivity of the financial entity net value to interest rate fluctuations.

The estimate of the impact of variations in interest rates is conducted under a scenario of increase or decrease of 100 basis points in assets and liabilities at the different terms (parallel movement of the curve). The following table presents a summary of the impact on the Bank's economic value and on the net interest income applying these variations:

(1) According to the nature of the instruments on demand, the sensitivity of annual income and expenses to a decrease or increase in rates for currencies with rates below 1% is measured using a variation of 25 basis points.

#### (c) Operating Risk

The Bank has established a minimum framework for operational risk management within its companies, which is intended to provide general guidelines to ensure the identification, assessment, control, monitoring and reporting of operational risks and materialized events that may affect the organization with the objective of ensuring the proper management, mitigation or reduction of the managed risks and contributing to provide a reasonable assurance with respect to the achievement of organizational objectives.

The operational risk management model considers best practices issued by the Basel Committee on Banking Supervision and by COSO (Committee of Sponsoring Organizations of the Treadway Commission). In addition, it complies with the regulatory requirements of the region, which have been defined by the regulators of the countries where the Bank operates.

Taking the foregoing as a reference, operational risk is defined as the possibility that the events resulting from personnel, information technologies or inadequate or failed internal processes, or produced by external causes, generate negative impacts that go against the objectives. By its nature, it is present in all of the organization's activities.

The priority of the Bank is, therefore, identifying and managing the major risk factors, regardless of whether they can produce monetary losses. The measurement also contributes to the establishment of priorities in the management of operational risk.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (4) Risk Management, continued

The operational risk management system is properly documented in the Operational Risk Guideline and Manual. It is a continuous process with several stages:

- Measurement of the perspective of control environment
- · Identification and assessment of operational risks
- Treatment and mitigation of operational risks
- Risk monitoring and review
- Registration and accounting of losses due to operational risk incidents

Additionally, the Bank has policies formally established for the management of information security, business continuity, fraud prevention and code of ethics that support the proper management of operational risks in the organization.

At the regional level and in all countries where the Bank operates, there is an operational risk management unit that monitors, advises and assesses the management conducted by the administration with regard to operational risks. In addition, there is a specialized Operational Risk Committee (OR Committee) composed of senior management. The OR Committee reports to the Comprehensive Risk Management Committee, monitors management and ensures that identified operational risks are kept at accepted levels by the Bank.

Compliance with Bank standards is supported by a program of periodic reviews undertaken by Internal Audit, which reports the results to the Internal Audit.

#### (5) COVID – 19

As of March 31, 2022, the Bank has not defaulted on principal or interest payments on its financial obligations. As a result of regulatory responses by regulatory agencies to mitigate the macroeconomic and financial impacts generated by the COVID-19 pandemic, contractual commitments associated with specific financial indicators that may be impacted by such implementations are monitored.

As of March 31, 2022, the following matters have been evaluated, which in some cases have had an impact on the Bank's financial statements and operations and which during the period subsequent to the date of these financial statements and up to the date of issuance of these financial statements, continue to be monitored by management to address their effects on the Bank's operations and those of its customers.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

### (5) COVID – 19, continued

The calculation of expected credit losses for credit risk incorporated from the first quarter of 2022 updates on the forward-looking information projections, in line with the effects of the decisions that the government continues with reference to COVID-19 and considering the high level of uncertainty of these in terms of their intensity and duration. The projection information has been based on the best available information obtained, considering the different geographic areas in which the Bank operates, and taking into account the effects on the segments and portfolios of the different entities, which are exposed to different risks and situations.

Considering prospective information based on macroeconomic variables, the Group updated the scenarios used and the probabilities assigned to them at the end of March 31, 2022, with the effects shown in the following two tables:

- *i.* Macroeconomic variables used in the calculation of ECL, see note 4.
- *ii.* Weighting of probabilities assigned to scenarios after COVID-19

|          | March 31, 2022 |        | December 31, 2021 |        |  |
|----------|----------------|--------|-------------------|--------|--|
|          | Costa Rica     | Panamá | Costa Rica        | Panamá |  |
| Upside   | 20%            | 25%    | 20%               | 25%    |  |
| Central  | 65%            | 60%    | 65%               | 60%    |  |
| Downside | 15%            | 15%    | 15%               | 15%    |  |

The macroeconomic scenarios were adjusted to reflect the impacts of COVID-19 and the weights assigned to each scenario were recalibrated based on the expectations resulting from the information available to date (as well as updating historical information, assumptions related to the severity and duration of the pandemic, speed of recovery of the economy and their respective impact on the market).

The Bank continues to continuously monitor information that allows it to identify in a timely manner possible impact to ECL.

#### *iii.* Impairment allowance balances

|                          | March 31<br><u>2022</u> | December 31,<br><u>2021</u> | Variation March<br>vs December |

The table above summarizes the provision expense for portfolio impairment for impairment for each quarter of 2022.

#### a) Customer relief programs

The actions taken or suggested by the governments of the countries in which the Bank operates have promoted the generation of reliefs to customers (companies or individuals) between April 2020 and June 2021 in relation to loans or loan agreements in force, which hT

ave involved the renegotiation of their terms including, among others, the granting of grace periods, payment deferrals, extension of maturity and increase of credit line quotas. The following table summarizes the volume of relief granted by portfolio:

| March 31, 2022  | <u>Corporate</u> | Small<br><u>Company</u> | <u>Mortgage</u> | Personal<br><u>banking</u> | <u>Vehicles</u> | Credit<br><u>Card</u> |
|---|------------------|-------------------------|-----------------|----------------------------|-----------------|-----------------------|
| Amount of credits with relief % of credit with relief / Total credits | 147              | 162                     | 623             | 1,578                      | 1,761           | 598                   |

| <u>December 31, 2021</u>  | <u>Corporate</u> | Small<br><u>Company</u> | <u>Mortgage</u> | Personal<br><u>banking</u> | <u>Vehicles</u> | Credit<br><u>Card</u> |
| Amount of credits with relief   | 159              | 172                     | 787             | 1,997                      | 2,096           | 824                   |
| % of credit with relief / Total credits                               | 2.32%            | 16.28%                  | 10.35%          | 6.91%                      | 8,19%           | 9.58%                 |

As of March 31, 2022, the impact recognized in operation results for COVID-19 reliefs is \$1,955,562 (December 31, 2021 \$10,438,155).

As of today, the government has not decreed direct support for the banks.

b) Leases from the lessee's perspective

Between lessors and lessees, as of April 2020, processes have been carried out to renegotiate the terms of their lease agreements, as a result of which the lessors have granted the lessees concessions of some kind in connection with the lease payments.

Some of the Bank's entities that have leased assets have renegotiated the terms of their lease agreements as a consequence of the COVID-19 crisis. The Bank has considered, in its role as lessee, the proper accounting of these concessions by analyzing whether or not they correspond to modifications of the contract; this analysis resulted in the recognition of gains and/or losses in the statement of income and in the adjustment of lease liabilities, with the impacts shown in the following table:

|  |  | March 31, 2022 December 31, 2021           |   |  |  |   |  |
|--|--|--|---|--|--|---|--|
| Relief mode                                      | Number of<br>relief<br><u>received</u> | % Contracts with<br>relief/Total contracts | Recognized<br>effect on<br><u>income of</u> | Number of<br>relief<br><u>received</u> | % Contracts with<br>relief/Total contracts | Recognized<br>effect on<br><u>income of</u> |  |
| Reduction of the canon for<br>a number of months | 228                                    | 46.72%                                     | 23,318                                      | 258                                    | 48.96%                                     | 2,802                                       |  |

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

## (5) COVID – 19, continued

 Impairment on Other Assets – Property, Plant, Equipment and Intangibles As of March 31, 2022, no indicators of impairment were identified for the Bank's businesses.

(6) Critical Accounting Estimates and Judgments in the Implementation of Accounting Policies, continued

The Bank's management is responsible for the development, selection, disclosure of policies and critical accounting estimates and their implementation in a manner consistent with the assumptions selected and related to the significant estimate uncertainties.

The Bank has applied the policies to the condensed consolidated interim financial statements in a manner consistent with those of the consolidated financial statements as of December 31, 2021.

## (7) Cash, Cash Equivalents and Deposits

Cash and cash equivalents are listed below for reconciliation purposes with the consolidated statement of cash flow:

|  | March 31,<br><u>2022</u> | March 31,<br><u>2021</u> |
|--|--------------------------|--------------------------|
| Cash and cash equivalents  | 21,076,099               | 21,008,879               |
| Deposits in banks and deposits due in less than 90 days              | 128,948,764              | 158,802,382              |
| Cash and cash equivalents in the consolidated statement of cash flow | 150,024,863              | 179,811,261              |
| Deposits in banks greater than 90 days and pledged                   | 7,554,586                | 8,537,359                |
| Total cash, cash equivalents and deposits in banks                   | 157,579,449              | 188,348,620              |

#### (8) Investments at Fair Value

As of March 31, 2022, investments at fair value amounted to \$905,964,285 (December 31, 2021: \$915,886,007) are summarized as follows:

#### (a) Investments at FVTPL

The portfolio of investments in securities at FVTPL is detailed as follows:

|                  | March 31,<br><u>2022</u> | December 31,<br><u>2021</u> |
|------------------|--------------------------|-----------------------------|
| Government bonds | 15,214,028               | 15,799,761                  |
| Corporates bonds | 15,502                   | 16,112                      |
| Mutual funds     | 20,860,003               | 21,185,348                  |
| Common stocks    | 1,842,887                | 2,018,397                   |
|                  | 37.932.420               | 39.019.618                  |

#### (b) Investment at FVOCI

The portfolio of investments at FVOCI is detailed as follows:

|   | March 31,<br><u>2022</u>                         | December 31,<br><u>2021</u>                      |

The following are the items recognized in the condensed consolidated statement of income, related to lease liabilities.

|   | March 31,<br><u>2022</u> | March 31,<br><u>2021</u> |
|---|--------------------------|--------------------------|
| Interest on leases                          | 258,664                  | 280,305                  |
| Expense for leases with less than 12 months | 244,652                  | 276,384                  |
| Expense for leases of low-value assets      | <u>132,322</u>           | <u>215,656</u>           |
|   | 635,638                  | 772,345                  |

## (14) Derivative Financial Instruments

#### Fair value hedges of interest rate risk

As of March 31, 2022, the Bank uses interest rate swap agreements ("interest rate swaps") to mitigate the interest rate risk of financial assets and liabilities. Such agreements are recorded at fair value in the consolidated statement of financial position, in other assets and other liabilities, where appropriate.

Following is a summary of the derivative instrument's contracts by maturity and accounting method:

| Interest rate swap20,500,00003,102,552December 31, 2021<br>Type of instrumentRemaining Maturity<br>Nominal Amount<br>Over 1 yearFair Values<br>AssetsLiabilitiesInterest rate swap20,500,00005,016,916 | <u>March 31, 2022</u><br>Type of instrument | Remaining Maturity<br>Nominal Amount<br><u>Over 1 year</u> | <u>Fair \</u><br><u>Assets</u> | <u>/alues</u><br>Liabilities |
|--|---|--|--------------------------------|------------------------------|
| December 31, 2021Nominal AmountFair ValuesType of instrumentOver 1 yearAssetsLiabilities   | Interest rate swap                          | <u>20,500,000</u>  | 0                              | <u>3,102,552</u>             |

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

## (14) Derivative Financial Instruments, continued

On a monthly basis, changes in fair value are determined for hypothetical derivatives that simulate the primary hedged position considering only the interest rate risk compared to the changes in the valuation of the actual interest rate swap.

Both values are compared to determine their effectiveness in accordance with the 80-125% effectiveness rule provided for in the accounting standards for hedge accounting.

The Bank has measured the effects of the credit risk of its counterparties and its own credit risk to determine the fair value of its derivative financial instruments. Some of the contracts entered with counterparties include early termination clauses.

The Bank calculates credit risk adjustments incorporating inputs from credit default swaps ("Credit Default Swaps" or CDS).

#### Cash flow hedges of the exchange rate risk

The Bank uses interest rate swap and cross currency swap agreements to reduce the risk of the exchange rate of financial liabilities. These contracts are recorded at fair value in the consolidated statement of financial position, in other assets and other liabilities, as appropriate. On January 12, 2021, the position held by the Bank was closed.

#### Other derivatives

At of March 31, 2022, the Bank uses exchange rate swap contracts ("FX foward") to reduce the exchange rate risk on exposures of purchase and sale of currency on behalf of the client, for the active position \$11,848 and liabilities \$11,425 (December 31, 2021: active position \$254,004 and liabilities \$251,176) a natural hedge is applied in the consolidated income statement.

Derivative financial instruments have been categorized in level 2 of the fair value hierarchy, as follows:

|                                     | March 31,<br><u>2022</u> | December 31,<br><u>2021</u> |
|-------------------------------------|--------------------------|-----------------------------|
| Financial assets at fair value      | 11,848                   | 254,004                     |
| Financial liabilities at fair value | ( <u>3,102,552</u> )     | ( <u>5,016,916</u> )        |
| Net                                 | ( <u>3,090,704</u> )     | ( <u>4,762,912</u> )        |

The main valuation methods, hypotheses and variables used in estimating the fair value of derivatives are presented below:

| <u>Derivatives</u>        | Valuation Technique          | Inputs used                               | Level |
|---------------------------|------------------------------|---|-------|

#### (16) Net Gain (Loss) in Financial Instruments

Gain in financial instruments, nets, included in the condensed consolidated statement of income is summarized below:

|   | March 31,<br><u>2022</u> | March 31,<br><u>2021</u> |
|---|--------------------------|--------------------------|
| Net gain on sale of investments at FVOCI                | 0                        | 3,764,572                |
| Unrealized net loss from securities at FVTPL            | (758,256)                | (287,856)                |
| Net gain from sales of securities at FVTPL              | 42,350                   | 0                        |
| Net fair value loss on derivative financial instruments | (108,285)                | (110,315)                |
|   | (824,191)                | 3,366,401                |

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

## (17) Income Tax

The income tax expense is made up of:

|                             | March 31,<br><u>2022</u>                            | March 31,<br><u>2021</u>                        |
|-----------------------------|---|---|
| Current tax<br>Deferred tax | 1,843,928<br>( <u>1,735,669</u> )<br><u>108,259</u> | 1,134,115<br><u>(967,226)</u><br><u>166,889</u> |

Income tax expense for the year ended March 31, 2022 was \$108,259 (March 31, 2021: \$166,889), which differs from the amounts calculated applying the current tax rates on earnings before tax, such as result of the following:

|  | March 31,<br><u>2022</u> | Percentage<br><u>%</u> | March 31,<br><u>2021</u> | Percentage<br><u>%</u> |
|--|--------------------------|------------------------|--------------------------|------------------------|
| Calculation of "expected" income tax expense<br>Increase (decrease) in income tax as a result of | 1,323,824                | 25.00%                 | 1,151,899                | 25.00%                 |
| Non-deductible costs   | 5,543,365                | 104.68%                | 6,926,185                | 150.32%                |
| Effect of tax losses on subsidiaries   | 51,833                   | 0.98%                  | 42,230                   | 0.92%                  |
| Tax loss carryforwards   | (213,296)                | (4.03%)                | (827,212)                | (17.95%)               |
| Foreign exempted and non-taxable income  | ( <u>6,597,467</u> )     | <u>(124.59%)</u>       | (7,126,213)              | (154.66%)              |
| Income tax expense   | 108,259                  | 2.04%                  | 166,889                  | 3.62%                  |

The temporary differences between the amounts of the condensed consolidated interim financial statements and the tax bases of the assets and liabilities that generate the deferred assets and liabilities as of March 31, 2022, are as follows:

|   | March 31, 2022   |  |   |  |                               |                                    |
|---|--|--|---|--|-------------------------------|------------------------------------|
|   | Net balance<br>at the<br>beginning<br><u>of the year</u> | Recognized<br>in results of<br><u>the year</u> | Recognized in<br>comprehensive<br><u>income</u> | Net<br>balance at<br>the end of<br><u>the year</u> | Deferred tax<br><u>assets</u> | Deferred tax<br><u>liabilities</u> |

The management presents the net deferred tax, which is derived from the taxes corresponding to the same jurisdiction, within the consolidated statement of financial position.

As of March 31, 2022, the Bank has carry-over of net operating losses of \$14,081,471 (December 31, 2021: \$14,779,633), which are available to offset future taxable income of the subsidiaries as needed. Net operating losses begin to prescribe in 2022, based on annual percentages established by the country's regulation.

Deferred taxes assets have not been recognized for \$1,363,284 (2021: \$918,134) from accumulated tax losses of \$1,833,748 (2020: \$1,282,564) and by portfolio reserve and other accounts receivable for \$1,427,969, because there is not enough evidence that indicates that there will be sufficient future taxable income for the Bank to use the corresponding taxable benefits. These accumulated tax losses expire between 2022 y 2025.

As of March 31, 2022, the Bank maintains an effective tax rate of 2.04% (December 31, 2021: 3.62%).

The following are the tax jurisdictions in which the Bank and its affiliates operate, and the furthest fiscal year subject to inspection: Costa Rica: 2017 and Panama: 2016.

#### (18) Financial Instruments with Off-Balance Sheet Risk and Other Commitments

As of March 31, 2022, the outstanding amounts of letters of credit, financial guarantees and letters of promise to pay are as follows:

|   | March 31,<br><u>2022</u>   | December 31,<br><u>2021</u>   |
|---|--|---|
| Stand-by letters of credit<br>Commercial letters of credit (1)<br>Financial guarantees<br>Loans commitments (promise letters) | 15,977,229<br>11,659,776<br>112,313,905<br><u>156,005,696</u><br>295,956,606 | 17,112,010<br>11,151,828<br>112,850,236<br><u>133,797,351</u><br><u>274,911,425</u> |

(1) Includes commercial and mortgage payment promise letters

The nature, terms and maximum potential amount of future payments the Bank could be required to make under the standby letters of credit and guarantees as of March 31, 2022, are detailed as follows

|              | March 31,<br><u>2022</u> | December 31,<br><u>2021</u> |
|--------------|--------------------------|-----------------------------|
| Up to 1 year | 93,677,613               | 102,129,460                 |
| Över 1 year  | 190,619,217              | 161,630,136                 |
| -            | 284,296,830              | <u>263,759,596</u>          |

Generally, the Bank has resources to recover from clients the amounts paid under these guarantees; additionally, the Bank can hold cash or other guarantees to cover for these guarantees issued. The assets held as collateral that the Bank can obtain and settle to collect all or part of the amounts paid under these guarantees as of March 31, 2022, amounted to \$5,268,257 (December 31, 2021: \$5,793,278).

#### (19) Disclosures on the Fair Value of Financial Instruments

Assets and liabilities recorded at fair value on a recurring basis are summarized below:

The Bank's accounting policies include the recognition of transfers between the levels of the fair value hierarchy on the date of the event or change in the circumstances that caused the transfer.

The table below includes the movement of the figures in the consolidated statement of financial position (including changes in fair value) of the financial instruments classified by the Bank within Level 3 of the fair value hierarchy, for the period ended March 31, 2022. When determining whether to classify an instrument in Level 3, the decision is based on the importance of unobservable inputs within the overall fair value measurement.

## (19) Disclosures on the Fair Value of Financial Instruments, continued

The table below describes the valuation techniques and input data used in the financial instruments' recurring fair value measurements:

| Financial instrument  | Valuation technique and entry data used   | Level |
|---|---|-------|
| Corporate bonds and bonds issued by the government and agencies | Consensus prices obtained through price providers (Bloomberg). For part of these instruments discounted cash flows are applied using a market rate of an instrument with a similar remaining maturity. Market prices provided by price providers or local regulators, in less marketable markets.<br>Discounted cash flows are used for various bonds using a rate of market for an instrument with a similar remaining maturity. | (2,3) |
| Common stocks   | Discounted cash flows using a capital cost rate adjusted for premium for size.  | (3)   |
| Common stocks   | Market prices provided by local stock exchanges.  | (2)   |
| Mutual funds and other stocks                                   | Net Asset Value.  | (2)   |
| Embedded financial derivative instruments                       | Functional currency cash flows<br>Foreign currency cash flows   | (3)   |

The valuation techniques and significant unobservable input data used in determining the fair value of recurring and nonrecurring assets and liabilities categorized within Level 3 of the fair value hierarchy that are recognized in the consolidated financial position are as follows:

| <u>March 31, 2022</u> |            | Quantitative information                 | on of Level 3 fair values   |
|-----------------------|------------|--|-----------------------------|

#### (20) Trust Agreements Administration and Custody of Securities

As of March 31, 2022, several subsidiaries of the Bank manage and keep custody of securities for a total amount of approximately \$551,941,945 (December 31, 2021: \$562,424,903).

The Bank maintains, within its portfolio of administered trust agreements, a total of \$273,402,040 (December 31, 2021: \$275,496,768), corresponding to investments of the Board of Directors of the Savings & Capitalization Pension System for Public Sector Employees (SIACAP). The administration of SIACAP was awarded to the Multibank/Multi Securities Operating Venture, (The "Administrator") through Service Contract No. 008-2017 published in the Official Gazette No.28379 of October 4, 2017. Some important clauses of this Contract establish the following:

- Operate as an investment manager of the resources of SIACAP members for a period of 5 years.
- Manage and invest the resources of affiliates according to Law No.27 of June 27, 1997 and Executive Decree No.32 of July 6, 1998.
- Deliver monthly investment reports to SIACAP.

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

## (20) Trust Agreements Administration and Custody of Securities, continued

As of March 31, 2022, the Administrator maintains a compliance bond in the amount of \$2,750,000 (December 31, 2021: \$2,750,000) on behalf of the Board of Directors of the SIACAP-Panama General Comptroller.

## (21) Related Parties Transactions

In the normal course of business, the Bank conducts transactions with related parties, including main executives and directors. These transactions, according to the internal policies of the Bank are carried out at market conditions. Additionally, on May 2020, the Bank recognized a reserve of accounts receivable with related companies of approximately \$8 million, as a result of the review of the collateral of these accounts receivable, which were collected on the same date on the balance, net of reserve

The following table shows the balances and transactions with related parties as of March 31, 2022:

|   | March 31, 2022                 |                           | December 31, 2021              |                           |

#### (22) Operating Segments

The Bank segregates its operations according to the nature of services provided ("Operating Groups"). Each operating group offers similar products and services, and they are managed separately based on the Bank's internal reporting and management structure. The Bank's Management reviews the internal management reports of each operating group at least once a month.

The information related to each operation group is presented below. The profit of the segment before taxes, as included in the internal management reports reviewed by the Bank's Management, is used to measure performance because the management considers that this information is the most relevant to evaluate the results of the respective groups of operation in relation to other entities operating within the industry.

(Panama, Republic of Panama)

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

#### (23) Regulatory Aspects

As of March 31, 2022, the Banking operations of the Bank meet all capital adequacy minimum requirements to which they are subject, which varies from 8.00% and other regulatory requirements.

The table below summarizes the classification of the amortized cost loan portfolio and the reserves for loan losses based on Rule No. 4-2013, as of March 31, 2022:

|                 | March 31             | <u>March 31, 2022</u> |                      | <u>31, 2021</u> |
|-----------------|----------------------|-----------------------|----------------------|-----------------|
|                 | <u>Loans</u>         | <u>Reserves</u>       | <u>Loans</u>         | <u>Reserves</u> |
| Normal          | 2,865,101,041        | 0                     | 2,873,403,880        | 0               |
| Special mention | 299,146,414          | 23,972,699            | 344,812,801          | 25,092,566      |
| Substandard     | 210,238,460          | 30,619,618            | 90,775,606           | 11,750,662      |
| Doubtful        | 42,168,096           | 9,840,281             | 37,770,662           | 12,927,121      |
| Loss            | 44,264,511           | 30,599,193            | 52,764,772           | 24,769,034      |
| Gross amount    | <u>3,460,918,522</u> | <u>95,031,791</u>     | <u>3,399,527,721</u> | 74,539,383      |

Rule No. 4-2013 defined past due loans as any credit facility with any unpaid amount for contractual principal, interest or fees, with an aging of more than 30 days up to 90 days, from the payment due date.

Rule No. 4-2013 defined non-performing loans as any credit facility which payments have remained past due for more than 90 days. This period shall be calculated from the date contractually set for payment. Operations with a lump-sum payment at maturity and overdrafts will become non - performing when the aging of defaulted payments exceeds 30 days from the date on which payment was required.

As of March 31, 2022, the classification of the amortized cost loan portfolio by maturity profile based on Rule No. 4-2013.

#### March 31, 2022

| Past due                                      | Non-performing<br><u>loans</u> | <u>Total</u>       |  |  |
|---|--------------------------------|--------------------|--|--|

# Notes to the Unaudited Condensed Consolidated Interim Financial Statements

## (24) Regulatory Aspects, continued

With the rescission of the article 8 of Rule No- 2-2021, the entities will not be able to reverse the provisions previously established (through profit or equity) as of November 2021. As of March 31, 2022 the Bank does not maintain provisions as per Rule No. 2-2021.

As explained in Note 5 on the effects of COVID-19, as of March 31, 2022, the Bank granted an automatic grace period to borrowers affected in their business or personal activities by COVID-19, until June 30, 2020. From that date, and as result of an agreement signed between the government of Panama and the Banking Association of Panama, as well as the issuance of the moratorium Law No.156; the financial relief was extended until December 31, 2021 to those affected by COVID-19 and for those who requested it.

As of July 1, 2021, Rule 02-2021 and Resolution SBP-GJD-0004-2021 entered into force, which formalized the restructuring of the credits, whose period extended from July 1st to September 30, 2021. To comply with this Rule, the Bank, in its credit management, has taken measures for these financial reliefs, that consist mainly of granting grace periods of principal and interest to customers whose income has been affected by the pandemic, extensions of term keeping the same installment, installment reductions for periods of time between 6 to 36 months accompanied by term extensions and interest deferrals in a fixed amount for a period of up to 48 months.

As part of the Bank's risk management, both individual and collective analyses of the condition of the loans have been made, including the segmentation of the portfolio with the purpose of identifying the labor situation or re-opening of economic activity of each client and defining those who will be able to comply with their banking obligations, those who will have difficulties in doing so and those who will definitely not be able to comply, and thus, determine if there has been a significant increase in risk and classify such loans according to the corresponding stage of impairment. Additionally, different agreements have been reached with customers based on the individual analysis of their capacity to generate the cash flows necessary to meet their obligations.

## (24) Regulatory Aspects, continued

As of March 31, 2022, the Bank established a capital reserve of \$5,102,687 (December 31, 2021 \$4,739,677), in compliance with Rule No.11-2019.

As of March 31, 2022, in compliance with provisions indicated in articles 36 and 38 of Rule No. 4-2013, the Bank established a dynamic provision as an equity item that is assigned from retained earnings. The credit balance of this dynamic provision is part of the regulatory capital, but it does not replace or offset the requirements for the minimum capital adequacy percentage established by the Superintendency of Banks of Panama.

Rule No. 4-2013 establishes a dynamic provision which will not be less than 1.25%, nor greater than 2.50% of the risk-weighted assets corresponding to credit facilities classified as normal, as of March 31, 2022. These percentages represent the following amounts:

|       | March 31,<br><u>2022</u> | December 31,<br><u>2021</u> |
|-------|--------------------------|-----------------------------|
| 1.25% | <u>28,207,058</u>        | <u>25,676,262</u>           |
| 2.50% | <u>56,414,115</u>        | <u>51,352,525</u>           |

The following table summarizes the balance constituted for dynamic provision by Multibank Inc. and Subsidiaries for each of the following subsidiaries:

|                                     | March 31,<br><u>2022</u> | December 31,<br><u>2020</u> |
|-------------------------------------|--------------------------|-----------------------------|
| Multibank Inc.                      | 56,630,024               | 56,630,024                  |
| MB Creditos, S. A. and Subsidiaries | 21,314                   | 21,314                      |
|                                     | <u>56,651,338</u>        | 56,651,338                  |

#### - Capital Management

Management considers that, as of March 31, 2022 and December 31, 2021, the Bank meets all the financial adequacy requirements to which it is subject. The Bank presents its consolidated capital funds on its risk-weighted assets based on Rules No.1-2015, No.3-2016, No.2-2018 and No.11-2018 of the Superintendency of Banks of Panama.

(Panama, Republic of Panama)
